Access to Basic Banking

The credit union recognizes the importance of access to banking services and will take reasonable measures to ensure access to a basic banking account. A credit union may restrict account services to reasonably protect itself from credit losses from account users.

Advertising and Sales Practices

The credit union will ensure our advertising and promotional literature is not deceptive or misleading.

The credit union will not practice tied or coercive selling.

The credit union will not impose undue pressure or coerce you to obtain a product or service from the credit union and any of its affiliates as a condition of obtaining another product or service from the credit union. You will not be unduly pressured to buy a product or service that you do not want in order to obtain another desired product or service. The credit union may show its interest in your business or appreciation of your loyalty by offering preferential pricing or bundling of products and services with more favorable terms. These practices should not be confused with coercive tied selling.

The credit union's requirements will be reasonable and consistent with its level of risk. The law allows the credit union to impose reasonable requirements on consumers as a condition for granting a loan or to provide a specific service, but only to the extent necessary for the credit union to manage its risk or its cost or to comply with the law.

The credit union will not knowingly take advantage of anyone through manipulation, concealment, abuse of privileged information, misrepresentation of facts or any other unfair dealing or unethical activity.

The credit union will act fairly and reasonably towards you in an ethical manner; in doing so, it will consider your conduct, its conduct and the contract between us.

In meeting the credit union's key commitments to you, it will have regard to its prudential obligations.

Inactive Accounts

An **Inactive** account is an account which has had no member generated financial transactions within a **two-year** time period. After the two years the balances are treated as unclaimed based on Credit Union regulations.
